Printing Bureau Improvements.

The new building recently erected for and taken possession of by the Bureau of Engraving and Printing of the Treasury is one of the handsomest and most imposing public offices in the city, and will, doubtless, become one of the most prominent objects of interest to visitors. Besides being thoroughly furnished and arranged within for money-making, its exterior attractions have received the attention of Congress by liberal appropriations, and preparations are now being made for carrying out the plans contemplated when the question of a new building first arose. In the sundry civil bill is an appropriation of \$15,732.70, to be devoted to the purchase of three lots of ground situated on the south line of the present site and a fifteen foot alley in the rear of the building, which are to be properly graded and laid out, fenced in and arranged for a handsome enclosure similar to those which surround other public buildings. For the grading, fencing, etc., an additional appropriation of \$20,000 is contained in the bill, and as the money becomes available July 1, the work will commence shortly.

Just arrived from Europe per steamer Braunschweig, fine lot of Hinsheimer Berg, Kiesling and other fine grades of Rhine wines, at Xander's, 511 Seventh street northwest. These wines can be relied upon as strictly pure and will give satisfaction to all using them.

Ex-District Attorney E. H. Lathrop, one of the leading Butler men of Massachusetts, has written a letter resigning his membership of the Butler state committee.

Judge Dent's Denial.

Mr. Commissioner Dent publishes a letter in reference to the report made to the District Attorney by the grand jury relative to matters at the District Commissioners' office, in which he says that these officials were invited to make a full examination of the District office and its affairs, and never availed themselves of the invitation. He says that the grand jury admit that no fraud has been committed while the present Commissioners have held office, and he "can see no reason for invoking the grand jury to defame and discredit the municipal administration, and to accomplish ends which manifestly have no reference to the public welfare."
